For minors, or persons who are not responsible for their actions, legal guardians / supervisors / responsible persons are to be trained in the use, this is confirmed by their signature. The data is recorded in the feedback system of PROACTIV Reha-Technik GmbH, as the manufacturer of the above named product. It will be managed in accordance with Section 16 BDSG (Federal Data Protection Law).

36 Appendix: Hand-over certificate

36.1 Required compliance criteria to authorise use

Topics	Completed / fulfilled	Remarks
The product is suitable for the customer based on their own judgement and the customer information received regarding the disability-related restrictions.		
The use intended by the customer is fully consistent with the intended use as described in the operating instructions (see the Product description / intended use chapter).		
The product's equipment is suitable to allow the customer safe use with maximum reduction of risks (see check list on the following page).		
The customer was informed about the current / applicable regulations in accordance with the road traffic regulations.		
The customer's driving ability was checked during a test drive in difficult driving situations and found to be appropriate (see the check list on the following page).		
The user, according to their own statements, or those of the legal representative or guardian and the assessment of the person providing the training, is able to meet the requirements of public traffic in full and to act accordingly. This ability to act, which is the basis for reducing the risk for the user and other road users to an acceptable level, is also completely achievable taking current illnesses / disabilities into full account.		
The operating instructions, and explicitly all of the warning and safety instructions contained therein, were discussed during the training in detail and understood by the user. The user was then handed these operating instructions.		

36.2 Check list for training the user

Topics	Completed / fulfilled
Advised of the applicable legal regulations when driving on public roads.	
All mechanical function controls were explained and their function demonstrated.	
Adaptation and uncoupling the drive unit to / from the chassis was demonstrated and then performed by the user themselves and / or their assistant.
